Product Details

The Ross Power Pack 2000 is portable, slim and lightweight, Ross Power Pack 2000 is the perfect way to ensure your battery won't run out. With 2000mAh of power, it has the capacity to fully charge a cell phone twice, a smartphone once or give your tablet a boost.*

*Dependent on the device

Charging

A USB to Micro USB B cable is included for both recharging the power pack and if applicable also your device. If you have an Apple device you will need your devices cable to attach to the power pack.

To charge the power pack simply place the Micro USB into the power pack and plug the USB into a suitable USB charging device. The device takes approx. 3 hours to fully charge. Once fully charged press the button and check the indicator lights. 4 Indicator lights show the power pack is fully charged.

To charge your device, connect the correct cable to your device and plug into the USB outlet on the power pack. A convenient charge indicator lets you know how much power is available.

Safety

Intelligent circuitry with built-in voltage sensing detects and responds to your devices power needs, while safety features ensure that your device is protected. Thermal management shuts off the battery before it overheats. Over-Current Protection and Short Circuit Protection prevents spikes in power, so your device won't be damaged if you have a faulty charging cable or a glitch in your device. The power pack holds a charge for a long time so you always have power when you need it. Can hold up to 95% of its charge for up to 30 days.
